

40 C.F.R. § 147.650

State-administered program—Class I, III, IV, and V wells.

The UIC program for Class I, III, IV, and V wells in the state of Idaho, other than those on Indian lands, is the program administered by the Idaho Department of Water Resources, approved by the EPA pursuant to section 1422 of the Safe Drinking Water Act. Notice of this approval was published in the Federal Register on June 7, 1985; the effective date of this program is July 22, 1985. This program consists of the following elements, as submitted to the EPA in Idaho's program application. *Note:* Because the EPA subsequently transferred the Class II UIC program from the Idaho Department of Water Resources to the EPA, references to Class II in the following elements are no longer relevant or applicable for federal UIC purposes.
