

40 C.F.R. § 148.22

Requirements for petition submission, review and approval or denial.

(a) Any petition submitted to the Director pursuant to § 148.20(a) shall include the following components:

- (1) An identification of the specific waste or wastes and the specific injection well or wells for which the demonstration will be made;
- (2) A waste analysis to describe fully the chemical and physical characteristics of the subject wastes;
- (3) Such additional information as is required by the Director to support the petition under §§ 148.20 and 148.21; and
