

## 40 C.F.R. § 1700.23

---

### Elevator pit effluent.

---

- (a) The direct discharge of elevator pit effluent is prohibited.
- (b) Notwithstanding the prohibition of direct discharges of elevator pit effluent overboard, if the elevator pit effluent is commingled with any other discharge for the purposes of treatment prior to discharge, then under no circumstances may oils, including oily mixtures, be discharged from that combined discharge in quantities that:
