

40 C.F.R. § 180.211

Propachlor; tolerances for residues.

(a) *General.* Tolerances are established for the combined residues of the herbicide propachlor (2-chloro-N-isopropylacetanilide) and its metabolites containing the N-isopropylaniline moiety, calculated as 2-chloro-N-isopropylacetanilide, in or on the raw agricultural commodities found in the table in this paragraph. The tolerances listed in the table will expire on January 19, 2024.
