

## 40 C.F.R. § 180.245

---

### Streptomycin; tolerances for residues.

---

(a) *General.* Tolerances are established for residues of the fungicide streptomycin, including its metabolites and degradates, in or on the commodities in Table 1 to this paragraph (a). Compliance with the tolerance levels specified in Table 1 to this paragraph (a) is to be determined by measuring only streptomycin (O-2-Deoxy-2-(methylamino)-α-L-glucofuranosyl-(1-2)-O-5-deoxy-3-C-formyl-α-L-lyxofuranosyl-(1-4)-N,N'-bis(aminoiminomethyl)-D-streptamine) in or on the commodity.
