

## 40 C.F.R. § 409.12

---

### Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

---

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available; provided however, that a discharge by a point source may be made in accordance with the limitations set forth in either paragraph (a) of this section exclusively, or paragraph (b) of this section exclusively, below:
