

40 C.F.R. § 414.83

Effluent limitations representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).

- (a) The Agency has determined that for existing point sources whose total OCPSF production defined by § 414.11 is less than or equal to five (5) million pounds of OCPSF products per year, the BPT level of treatment is the best available technology economically achievable. Accordingly, the Agency is not promulgating more stringent BAT limitations for these point sources.
