

## 40 C.F.R. § 418.33

---

### Effluent limitations and guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

---

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

- (a) The following limitations constitute the maximum permissible discharge for urea manufacturing operations in which urea is produced as a solution product:
