

## 40 C.F.R. § 446.10

---

### Applicability; description of the oil-base solvent wash paint subcategory.

---

The provisions of this subpart are applicable to discharges resulting from the production of oil-base paint where the tank cleaning is performed using solvents. When a plant is subject to effluent limitations covering more than one subcategory the discharge limitation shall be the aggregate of the limitations applicable to the total production covered in each subcategory.
