## 40 C.F.R. § 721.4620

---

### Zinc, bis(N,N-dipropyl-β-alaninato-κN,κO)-, (T-4)-.

---

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as zinc, bis(N,N-dipropyl-β-alaninato-κN,κO)-, (T-4)- (PMN P-90-274; CAS No. 135364-47-5) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows. (A) If, as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into a Safety Data Sheet (SDS) as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an SDS before the substance is reintroduced into the workplace.
