## 40 C.F.R. § 279.54

---

### Used oil management.

---

Used oil processor/re-refiners are subject to all applicable Spill Prevention, Control and Countermeasures (40 CFR part 112) in addition to the requirements of this subpart. Used oil processors/re-refiners are also subject to the Underground Storage Tank (40 CFR part 280) standards for used oil stored in underground tanks whether or not the used oil exhibits any characteristics of hazardous waste, in addition to the requirements of this subpart.

- (a) *Management units.* Used oil processors/re-refiners may not store used oil in units other than tanks, containers, or units subject to regulation under part 264 or 265 of this chapter.
- (b) *Condition of units.* Containers and aboveground tanks used to store or process used oil at processing and re-refining facilities must be:
  - (1) In good condition (no severe rusting, apparent structural defects or deterioration); and
  - (2) Not leaking (no visible leaks).
- (c) *Secondary containment for containers.* Containers used to store or process used oil at processing and re-refining facilities must be equipped with a secondary containment system.
  - (1) The secondary containment system must consist of, at a minimum:
