
40 C.F.R. § 300.915

Data and information requirements for listing on the NCP Product Schedule or Sorbent Product List.

If you are submitting an application for listing a product to the NCP Product Schedule or Sorbent Product List, you must provide EPA the information required under § 300.955. Technical product data submissions are not required for burning agents. Your submission for each product must contain:

- (a) *General information for any product category.* (1) Your name, physical address, email, and telephone number;
- (2) Your identity and documentation of that identity, as the manufacturer of the product, vendor, importer, distributor of the product, and/or a designated agent acting on behalf of the manufacturer.
- (3) All name(s), brand(s), and/or trademark(s) under which the product is to be sold;
- (4) Names, physical addresses, emails, and telephone numbers of the primary distributors, vendors, importers and/or designated agent acting on behalf of the manufacturer;
- (5) The Safety Data Sheet (SDS) for the product;
- (6) The maximum, minimum, and optimum temperature, humidity, and other relevant conditions for product storage and a brief description of the consequences to performance if the product is not stored within these limits;
- (7) The anticipated shelf life of the product at the storage conditions noted in paragraph (a)(6) of this section and documentation for this determination;
- (8) A sample product label for all name(s), brand(s), and/or trademark(s) under which the product is to be sold that includes manufacture and expiration dates, and conditions for storage. You may use an existing label provided it already contains the required dates and storage information;
- (9) The chemical or biological agent category under which you want the product to be considered for listing on the NCP Product Schedule, including detailed information on the specific process(es) through which the product affects the oil, and the specific environment(s) on which it is intended to be used (e.g., waters and/or adjoining shorelines). If your product meets the definition of more than one chemical or biological agent category, you must identify all applicable categories and provide the test data to meet the listing criteria appropriate to each;
- (10) Recommended product use procedures, including product concentrations, use ratios, types of application equipment, conditions for use, any application restrictions; and, as applicable, procedures for product and oil containment, collection, recovery, and disposal. These procedures must address, as appropriate, variables such as weather, water salinity, water temperature, types and weathering states of oils or other pollutants. The procedures must include supporting documentation and current applicable standard methods used to

determine them;

(11) Available information on environmental fate, including any known measured data, methodologies, and supporting documentation, on the persistence, bioconcentration factor, bioaccumulation factor, and biodegradability of the product and all of its components in the environment;
