

40 C.F.R. § 256.31

Recommendations for developing and implementing resource conservation and recovery programs.

- (a) In order to encourage resource recovery and conservation, the State plan should provide for technical assistance, training, information development and dissemination, financial support programs, market studies and market development programs.
- (b) In order to comply with the requirement of § 256.30(b) regarding long-term contract prohibitions, the State plan should provide for:
- (1) Review of existing State and local laws and regulations pertinent to contracting for resource recovery services or facilities.
 - (2) Reporting of all laws and regulations found to be in violation of this requirement to the executive officer of the administrative agency responsible for the statute.
 - (3) Development of an administrative order or a revised law or regulation or any other preliminary step for the removal or amending of a law or regulation in violation of this requirement.
 - (4) Development of a strategy for the consideration of the legislature to prohibit and/or remove from State or local law provisions in violation of this requirement.
