

## 40 C.F.R. § 258.23

---

### Explosive gases control.

---

(a) Owners or operators of all MSWLF units must ensure that:

- (1) The concentration of methane gas generated by the facility does not exceed 25 percent of the lower explosive limit for methane in facility structures (excluding gas control or recovery system components); and
  - (2) The concentration of methane gas does not exceed the lower explosive limit for methane at the facility property boundary.
- (b) Owners or operators of all MSWLF units must implement a routine methane monitoring program to ensure that the standards of paragraph (a) of this section are met.
