

40 C.F.R. § 264.1061

Alternative standards for valves in gas/vapor service or in light liquid service: percentage of valves allowed to leak.

- (a) An owner or operator subject to the requirements of § 264.1057 may elect to have all valves within a hazardous waste management unit comply with an alternative standard that allows no greater than 2 percent of the valves to leak.
- (b) The following requirements shall be met if an owner or operator decides to comply with the alternative standard of allowing 2 percent of valves to leak:
