
40 C.F.R. § 264.280

Closure and post-closure care.

(a) During the closure period the owner or operator must:

- (1) Continue all operations (including pH control) necessary to maximize degradation, transformation, or immobilization of hazardous constituents within the treatment zone as required under § 264.273(a), except to the extent such measures are inconsistent with paragraph (a)(8) of this section.
- (2) Continue all operations in the treatment zone to minimize run-off of hazardous constituents as required under § 264.273(b);
- (3) Maintain the run-on control system required under § 264.273(c);
- (4) Maintain the run-off management system required under § 264.273(d);
- (5) Control wind dispersal of hazardous waste if required under § 264.273(f);
- (6) Continue to comply with any prohibitions or conditions concerning growth of food-chain crops under § 264.276;
- (7) Continue unsaturated zone monitoring in compliance with § 264.278, except that soil-pore liquid monitoring may be terminated 90 days after the last application of waste to the treatment zone; and
- (8) Establish a vegetative cover on the portion of the facility being closed at such time that the cover will not substantially impede degradation, transformation, or immobilization of hazardous constituents in the treatment zone. The vegetative cover must be capable of maintaining growth without extensive maintenance.
