

40 C.F.R. § 264.91

Required programs.

(a) Owners and operators subject to this subpart must conduct a monitoring and response program as follows:

- (1) Whenever hazardous constituents under § 264.93 from a regulated unit are detected at a compliance point under § 264.95, the owner or operator must institute a compliance monitoring program under § 264.99. Detected is defined as statistically significant evidence of contamination as described in § 264.98(f);
