

## 40 C.F.R. § 267.15

---

### What are my general inspection requirements?

---

- (a) You must inspect your facility for malfunctions and deterioration, operator errors, and discharges that may be causing, or may lead to:
- (1) Release of hazardous waste constituents to the environment; or
  - (2) A threat to human health. You must conduct these inspections often enough to identify problems in time to correct them before they result in harm to human health or the environment.
- (b) You must develop and follow a written schedule for inspecting, monitoring equipment, safety and emergency equipment, security devices, and operating and structural equipment (such as dikes and sump pumps) that are important to preventing, detecting, or responding to environmental or human health hazards.
