

40 C.F.R. § 69.12

Continuing exemptions.

- (a) Effective on the expiration date of the initial eighteen month exemption provided under section 325(b) of “the Act”, the Administrator of the Environmental Protection Agency (EPA) exempts the Guam Power Authority's two sixty-six megawatt oil-fired steam units which comprise the Cabras Power Plant from sulfur dioxide requirements associated with New Source Performance Standards (NSPS) under section 111 of the Clean Air Act and from the related NSPS limitation on sulfur dioxide emissions contained in the Guam SIP.
