

40 C.F.R. § 72.85

Permit reopenings.

(a) The permitting authority shall reopen an Acid Rain permit for cause whenever:

- (1) Any additional requirement under the Acid Rain Program becomes applicable to any affected unit governed by the permit;
- (2) The permitting authority determines that the permit contains a material mistake or that an inaccurate statement was made in establishing the emissions standards or other terms or conditions of the permit, unless the mistake or statement is corrected in accordance with § 72.83; or
