

## 40 C.F.R. § 96.2

## Definitions.

The terms used in this part shall have the meanings set forth in this section as follows:

Account certificate of representation means the completed and signed submission required by subpart B of this part for certifying the designation of a  $NO_X$  authorized account representative for a  $NO_X$  Budget source or a group of identified  $NO_X$  Budget sources who is authorized to represent the owners and operators of such source or sources and of the  $NO_X$  Budget units at such source or sources with regard to matters under the  $NO_X$  Budget Trading Program.

Account number means the identification number given by the Administrator to each  $NO_X$  Allowance Tracking System account.

Acid Rain emissions limitation means, as defined in § 72.2 of this chapter, a limitation on emissions of sulfur dioxide or nitrogen oxides under the Acid Rain Program under title IV of the CAA.

Administrator means the Administrator of the United States Environmental Protection Agency or the Administrator's duly authorized representative.

Allocate or allocation means the determination by the permitting authority or the Administrator of the number of  $NO_X$  allowances to be initially credited to a  $NO_X$  Budget unit or an allocation set-aside.

Automated data acquisition and handling system or DAHS means that component of the CEMS, or other emissions monitoring system approved for use under subpart H of this part, designed to interpret and convert individual output signals from pollutant concentration monitors, flow monitors, diluent gas monitors, and other component parts of the monitoring system to produce a continuous record of the measured parameters in the measurement units required by subpart H of this part.

*Boiler* means an enclosed fossil or other fuel-fired combustion device used to produce heat and to transfer heat to recirculating water, steam, or other medium.

CAA means the CAA, 42 U.S.C. 7401, et seq., as amended by Pub. L. No. 101–549 (November 15, 1990).

Combined cycle system means a system comprised of one or more combustion turbines, heat recovery steam generators, and steam turbines configured to improve overall efficiency of electricity generation or steam production.

*Combustion turbine* means an enclosed fossil or other fuel-fired device that is comprised of a compressor, a combustor, and a turbine, and in which the flue gas resulting from the combustion of fuel in the combustor passes through the turbine, rotating the turbine.

Commence commercial operation means, with regard to a unit that serves a generator, to have begun to produce

steam, gas, or other heated medium used to generate electricity for sale or use, including test generation. Except as provided in  $\S$  96.5, for a unit that is a NO<sub>X</sub> Budget unit under  $\S$  96.4 on the date the unit commences commercial operation, such date shall remain the unit's date of commencement of commercial operation even if the unit is subsequently modified, reconstructed, or repowered. Except as provided in  $\S$  96.5 or subpart I of this part, for a unit that is not a NO<sub>X</sub> Budget unit under  $\S$  96.4 on the date the unit commences commercial operation, the date the unit becomes a NO<sub>X</sub> Budget unit under  $\S$  96.4 shall be the unit's date of commencement of commercial operation.

Commence operation means to have begun any mechanical, chemical, or electronic process, including, with regard to a unit, start-up of a unit's combustion chamber. Except as provided in § 96.5, for a unit that is a  $NO_X$  Budget unit under § 96.4 on the date of commencement of operation, such date shall remain the unit's date of commencement of operation even if the unit is subsequently modified, reconstructed, or repowered. Except as provided in § 96.5 or subpart I of this part, for a unit that is not a  $NO_X$  Budget unit under § 96.4 on the date of commencement of operation, the date the unit becomes a  $NO_X$  Budget unit under § 96.4 shall be the unit's date of commencement of operation.

Common stack means a single flue through which emissions from two or more units are exhausted.

Compliance account means a  $NO_X$  Allowance Tracking System account, established by the Administrator for a  $NO_X$  Budget unit under subpart F of this part, in which the  $NO_X$  allowance allocations for the unit are initially recorded and in which are held  $NO_X$  allowances available for use by the unit for a control period for the purpose of meeting the unit's  $NO_X$  Budget emissions limitation.

Compliance certification means a submission to the permitting authority or the Administrator, as appropriate, that is required under subpart D of this part to report a  $NO_X$  Budget source's or a  $NO_X$  Budget unit's compliance or noncompliance with this part and that is signed by the  $NO_X$  authorized account representative in accordance with subpart B of this part.
