

40 C.F.R. § 98.332

GHGs to report.

You must report:

- (a) CO₂ process emissions from each Waelz kiln and electrothermic furnace used for zinc production.
- (b) CO₂, CH₄, and N₂O combustion emissions from each Waelz kiln. You must calculate and report these emissions under subpart C of this part (General Stationary Fuel Combustion Sources) by following the requirements of subpart C.
