

## 40 C.F.R. § 98.420

---

### Definition of the source category.

---

(a) The carbon dioxide (CO<sub>2</sub>) supplier source category consists of the following:

(1) Facilities with production process units that capture a CO<sub>2</sub> stream for purposes of supplying CO<sub>2</sub> for commercial applications or that capture and maintain custody of a CO<sub>2</sub> stream in order to sequester or otherwise inject it underground. Capture refers to the initial separation and removal of CO<sub>2</sub> from a manufacturing process or any other process.
