

## 40 C.F.R. § 98.425

---

### Procedures for estimating missing data.

---

(a) Whenever the quality assurance procedures in § 98.424(a)(1) of this subpart cannot be followed to measure quarterly mass flow or volumetric flow of CO<sub>2</sub>, the most appropriate of the following missing data procedures shall be followed:

- (1) A quarterly CO<sub>2</sub> mass flow or volumetric flow value that is missing may be substituted with a quarterly value measured during another quarter of the current reporting year.
- (2) A quarterly CO<sub>2</sub> mass flow or volumetric flow value that is missing may be substituted with a quarterly value measured during the same quarter from the past reporting year.
