

40 C.F.R. § 98.466

Data reporting requirements.

In addition to the information required by § 98.3(c), each annual report must contain the following information for each landfill.

(a) Report the following general landfill information:

- (1) A classification of the landfill as “open” (actively received waste in the reporting year) or “closed” (no longer receiving waste).
- (2) The year in which the landfill first started accepting waste for disposal.
- (3) The last year the landfill accepted waste (for open landfills, enter the estimated year of landfill closure).
- (4) The capacity (in metric tons) of the landfill.
- (5) An indication of whether leachate recirculation is used during the reporting year and its typical frequency of use over the past 10 years (*e.g.*, used several times a year for the past 10 years, used at least once a year for the past 10 years, used occasionally but not every year over the past 10 years, not used).

(b) Report the following waste characterization and modeling information:

- (1) The number of waste streams (including “Other Industrial Solid Waste (not otherwise listed)” and “Inerts”) for which Equation TT-1 of this subpart is used to calculate modeled CH₄ generation.
- (2) A description of each waste stream (including the types of materials in each waste stream) for which Equation TT-1 of this subpart is used to calculate modeled CH₄ generation.
