

40 C.F.R. § 62.8104

Identification of plan.

- (a) *Identification of plan.* On December 11, 2019, the New York State Department of Environmental Conservation (NYSDEC) submitted to the Environmental Protection Agency (EPA) a Clean Air Act revised section 111(d) state plan, to incorporate revisions to Title 6 NYCRR Parts 208 and 200 for the implementation of 40 CFR part 60, subpart Cf, “Emissions Guidelines for Municipal Solid Waste Landfills.”
- (b) *Identification of sources.* The plan applies to all existing municipal solid waste landfills under the jurisdiction of the New York State Department of Environmental Conservation that have accepted waste after November 8, 1987, and began construction, reconstruction, or modification on or prior to July 17, 2014, and have a design capacity threshold of 2.5 million megagrams (Mg) and 2.5 million cubic meters, as described in 40 CFR 60 subpart Cf.
