

40 C.F.R. § 63.1045

Standards—Pressurized separator.

- (a) This section applies to owners and operators controlling air emissions from an oil-water or organic-water separator that is pressurized and is operated as a closed-system.
- (b) The pressurized separator must meet the following requirements.
 - (1) The separator must be designed not to vent to the atmosphere as a result of compression of the vapor headspace in the separator during operation of the separator at its design capacity.
