

## 40 C.F.R. § 63.11158

---

### What definitions apply to this subpart?

---

Terms used in this subpart are defined in the CAA, in 40 CFR 63.2, and in this section as follows:

*Anode copper* means copper that is cast into anodes and refined in an electrolytic process to produce high purity copper.

*Capture system* means the collection of components used to capture gases and fumes released from one or more emissions points and then convey the captured gas stream to a control device. A capture system may include, but is not limited to, the following components as applicable to a given capture system design: duct intake devices, hoods, enclosures, ductwork, dampers, manifolds, plenums, and fans.
