

## 40 C.F.R. § 63.1542

---

### Definitions.

---

Terms used in this subpart are defined in the Act, in subpart A of this part, or in this section as follows:

*Affirmative defense* means, in the context of an enforcement proceeding, a response or defense put forward by a defendant, regarding which the defendant has the burden of proof, and the merits of which are independently and objectively evaluated in a judicial or administrative proceeding.

*Bag leak detection system* means a system that is capable of continuously monitoring relative particulate matter (dust) loadings in the exhaust of a baghouse in order to detect bag leaks and other upset conditions. A bag leak detection system includes, but is not limited to, an instrument that operates on triboelectric, light scattering, light transmittance, or other effect to continuously monitor relative particulate matter loadings.

*Blast furnace* means any reduction furnace to which sinter is charged and which forms separate layers of molten slag and lead bullion.

*Building* means a roofed and walled structure with limited openings to allow access and egress for people and vehicles.

*Charging location* means the physical opening through which raw materials are introduced into a sinter machine, blast furnace, or dross furnace.
