

## 40 C.F.R. § 63.782

---

### Definitions.

---

Terms used in this subpart are defined in the Clean Air Act (CAA), in subpart A of part 63, or in this section as follows:

*Add-on control system* means an air pollution control device such as a carbon absorber or incinerator that reduces pollution in an air stream by destruction or removal prior to discharge to the atmosphere.

*Affected source* means any shipbuilding or ship repair facility having surface coating operations with a minimum 1,000 liters (L) (264 gallons [gal]) annual marine coating usage that is subject to this subpart.

*Affirmative defense* means, in the context of an enforcement proceeding, a response or a defense put forward by a defendant, regarding which the defendant has the burden of proof, and the merits of which are independently and objectively evaluated in a judicial or administrative proceeding.

*Air flask specialty coating* means any special composition coating applied to interior surfaces of high pressure breathing air flasks to provide corrosion resistance and that is certified safe for use with breathing air supplies.

*Antenna specialty coating* means any coating applied to equipment through which electromagnetic signals must pass for reception or transmission.

*Antifoulant specialty coating* means any coating that is applied to the underwater portion of a vessel to prevent or reduce the attachment of biological organisms and that is registered with the EPA as a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act.

*As applied* means the condition of a coating at the time of application to the substrate, including any thinning solvent.

*As supplied* means the condition of a coating before any thinning, as sold and delivered by the coating manufacturer to the user.

*Batch* means the product of an individual production run of a coating manufacturer's process. A batch may vary in composition from other batches of the same product.

*Bitumens* mean black or brown materials that are soluble in carbon disulfide and consist mainly of hydrocarbons.

*Bituminous resin coating* means any coating that incorporates bitumens as a principal component and is formulated primarily to be applied to a substrate or surface to resist ultraviolet radiation and/or water.

*Certify* means, in reference to the volatile organic compounds (VOC) content or volatile organic hazardous air pollutants (VOHAP) content of a coating, to attest to the VOC content as determined through analysis by Method 24 of appendix A to 40 CFR part 60 or through use of forms and procedures outlined in appendix A of this subpart, or to attest to the VOHAP content as determined through an Administrator-approved test method. In

---

the case of conflicting results, Method 24 of appendix A to 40 CFR part 60 shall take precedence over the forms and procedures outlined in appendix A to this subpart for the options in which VOC is used as a surrogate for VOHAP.
