

## 40 C.F.R. § 63.7887

---

### What are the general standards I must meet for my affected equipment leak sources?

---

- (a) You must control HAP emissions from equipment leaks from each equipment component that is part of the affected source by implementing leak detection and control measures according to the standards specified in §§ 63.7920 through 63.7922 unless you elect to meet the requirements in paragraph (b) of this section.
