
40 C.F.R. § 63.8242

What are the installation, operation, and maintenance requirements for my continuous mercury monitoring systems?

(a) If you choose the continuous mercury monitoring option under § 63.8240(a), you must install, operate, and maintain each mercury continuous emissions monitor according to paragraphs (a)(1) through (5) of this section.

(1) Each mercury continuous emissions monitor must sample, analyze, and record the concentration of mercury at least once every 15 minutes.

(2) Each mercury continuous emissions monitor analyzer must have a detector with the capability to detect a mercury concentration of either 0.1 µg/m or 0.5 times the mercury concentration level measured during the performance test conducted according to § 63.8232.
