

31 C.F.R. § 29.344

Survivor benefits.

- (a) The general rule that Federal Benefit Payments are calculated under the applicable retirement plan as though the employee were eligible for optional retirement and separated on June 30, 1997, applies to death benefits that are determined by length of service. In these cases, the survivor's Federal Benefit Payment is calculated by multiplying the survivor's total benefit by the ratio of the deceased retiree or employee's Federal Benefit Payment to the deceased retiree or employee's total annuity. (See examples 13A and B of appendix A of this subpart.)
