

31 C.F.R. § 9.4

Criteria for determining effects of imports on national security.

(a) In determining the effect on the national security of imports of the article which is the subject of the investigation, the Secretary is required to take into consideration the following:

(1) Domestic production needed for projected national defense requirements including restoration and rehabilitation.

(2) The capacity of domestic industries to meet such projected requirements, including existing and anticipated availabilities of:
