

29 C.F.R. § 1.3

Obtaining and compiling wage rate information.

For the purpose of making wage determinations, the Administrator will conduct a continuing program for the obtaining and compiling of wage rate information. In determining the prevailing wages at the time of issuance of a wage determination, the Administrator will be guided by the definition of prevailing wage in § 1.2 and will consider the types of information listed in this section.

(a) The Administrator will encourage the voluntary submission of wage rate data by contractors, contractors' associations, labor organizations, public officials and other interested parties, reflecting wage rates paid to laborers and mechanics on various types of construction in the area. The Administrator may also obtain data from agencies on wage rates paid on construction projects under their jurisdiction. The information submitted should reflect the wage rates paid to workers employed in a particular classification in an area, the type or types of construction on which such rate or rates are paid, and whether or not such wage rates were paid on Federal or federally assisted projects subject to Davis-Bacon prevailing wage requirements.

(b) The following types of information may be considered in making wage rate determinations:

(1) Statements showing wage rates paid on projects, including the names and addresses of contractors, including subcontractors; the locations, approximate costs, dates of construction and types of projects, as well as whether or not the projects are Federal or federally assisted projects subject to Davis-Bacon prevailing wage requirements; and the number of workers employed in each classification on each project and the respective wage rates paid such workers.
