

## 29 C.F.R. § 452.95

---

### Absentee ballots.

---

Where the union knows in advance that a substantial number or a particular segment of the members will not be able to exercise their right to vote in person, as, for example, when access to a polling place is impracticable for many members because of shipping assignments, absentee ballots or other means of voting must be made available. <sup>[1]</sup> In the event absentee ballots are necessary the organization must give its members reasonable notice of the availability of such ballots. <sup>[2]</sup>
