

## 29 C.F.R. § 778.324

---

### Effect on hourly rate employees.

---

A similar situation is presented where employees have been hired at an hourly rate of pay and have customarily worked a fixed workweek. If the workweek is reduced from 40 to 35 hours without reduction in total pay, the average hourly rate is thereby increased as in § 778.322. If the reduction in work schedule is accompanied by a new agreement altering the mode of compensation from an hourly rate basis to a fixed salary for a variable workweek up to 40 hours, the results described in § 778.323 follow.
