
29 C.F.R. § 779.343

Combinations of exemptions.

- (a) An employee may be engaged in a particular workweek in two or more types of activities for each of which a specific exemption is provided by the Act. The combined work of the employee during such a workweek may not satisfy the requirements of either exemption. It is not the intent of the Act, however, that an exemption based on the performance of one exempt activity should be defeated by the performance of another activity which has been made the basis of an equivalent exemption under another provision of the Act. Thus, where an employee during a particular workweek is exclusively engaged in performing two or more activities to which different exemptions are applicable, each of which activities considered separately would be an exempt activity under the applicable exemption if it were the sole activity of the employee for the whole workweek in question, as a matter of enforcement policy the employee will be considered exempt during such workweek. If the scope of such exemptions is not the same, the exemption applicable to the employee will be equivalent to that provided by whichever exemption provision is more limited in scope.
