Blockchain news: TradeLens adds new member; JP Morgan and Microsoft collaborate

By Sascha Matuszak

The cooperation between A.P. Møller – Mærsk A/S, the Danish shipping conglomerate, and IBM to create a blockchain solution for the shipping industry has added another member: ZIM Integrated Shipping Service, an Israeli shipping company. The solution, TradeLens, has recorded more than five million shipments by more than 60 network members and 100 total ecosystem members since its inception last year.
