

29 C.F.R. § 780.326

On the range.

- (a) For purposes of this exemption, “range” is defined generally as land that is not cultivated. It is land that produces native forage for animal consumption, and includes land that is revegetated naturally or artificially to provide a forage cover that is managed like range vegetation. “Forage” as used here means “browse” or herbaceous food that is available to livestock or game animals.
