

29 C.F.R. § 1912.3

Advisory Committee on Construction Safety and Health.

(a) This part applies to the Advisory Committee on Construction Safety and Health which has been established under section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333), commonly known as the Construction Safety Act. The aforesaid section 107 requires the Secretary of Labor to seek the advice of the Advisory Committee in formulating construction standards thereunder. The standards which have been issued under section 107 are published in part 1926 of this chapter. In view of the far-reaching coverage of the Construction Safety Act, the myriad of standards which may be issued thereunder, and the fact that the Construction Safety Act would also apply to much of the work which is covered by the Williams-Steiger Occupational Safety and Health Act of 1970, whenever occupational safety or health standards for construction activities are proposed, the Assistant Secretary shall consult the Advisory Committee. The composition of the Advisory Committee is consistent with that of advisory committees which may be appointed under section 7(b) of the Act. See paragraph (c) of this section. An additional advisory committee will not normally be established under section 7(b) of the Act, unless the issue or issues involved include, but extend beyond construction activity. See § 1912.4 concerning the general policy against duplication of activity by advisory committees.
