

29 C.F.R. § 1953.1

Purpose and scope.

- (a) This part implements the provisions of section 18 of the Occupational Safety and Health Act of 1970 (“OSH Act” or the “Act”) which provides for State plans for the development and enforcement of State occupational safety and health standards. These plans must meet the criteria in section 18(c) of the Act, and part 1902 of this chapter (for plans covering both private sector and State and local government employers) or part 1956 of this chapter (for plans covering only State and local government employers), either at the time of submission or—where the plan is developmental—within the three year period immediately following commencement of the plan's operation. Approval of a State plan is based on a finding that the State has, or will have, a program, pursuant to appropriate State law, for the adoption and enforcement of State standards that is “at least as effective” as the Federal program.
