

29 C.F.R. § 1960.87

Objectives.

The basic objective of field councils is to facilitate the exchange of ideas and information to assist agencies to reduce the incidence, severity and cost of occupational accidents, injuries, and illnesses. Field councils shall act on behalf of the Secretary or his designees on occupational safety and health activities in carrying out within their respective geographic areas the following functions:

- (a) To act as a clearinghouse on information and data on occupational accidents, injuries, and illnesses and their prevention.
