
29 C.F.R. § 2510.3-101

Definition of “plan assets”—plan investments.

(a) *In general.* (1) This section describes what constitute assets of a plan with respect to a plan's investment in another entity for purposes of subtitle A, and parts 1 and 4 of subtitle B, of title I of the Act and section 4975 of the Internal Revenue Code. Paragraph (a)(2) of this section contains a general rule relating to plan investments. Paragraphs (b) through (f) of this section define certain terms that are used in the application of the general rule. Paragraph (g) of this section describes how the rules in this section are to be applied when a plan owns property jointly with others or where it acquires an equity interest whose value relates solely to identified assets of an issuer. Paragraph (h) of this section contains special rules relating to particular kinds of plan investments. Paragraph (i) describes the assets that a plan acquires when it purchases certain guaranteed mortgage certificates. Paragraph (j) of this section contains examples illustrating the operation of this section. The effective date of this section is set forth in paragraph (k) of this section.

(2) Generally, when a plan invests in another entity, the plan's assets include its investment, but do not, solely by reason of such investment, include any of the underlying assets of the entity. However, in the case of a plan's investment in an equity interest of an entity that is neither a publicly-offered security nor a security issued by an investment company registered under the Investment Company Act of 1940 its assets include both the equity interest and an undivided interest in each of the underlying assets of the entity, unless it is established that—

- (i) The entity is an operating company, or
- (ii) Equity participation in the entity by benefit plan investors is not significant.

Therefore, any person who exercises authority or control respecting the management or disposition of such underlying assets, and any person who provides investment advice with respect to such assets for a fee (direct or indirect), is a fiduciary of the investing plan.

(b) *Equity interests and publicly-offered securities.* (1) The term *equity interest* means any interest in an entity other than an instrument that is treated as indebtedness under applicable local law and which has no substantial equity features. A profits interest in a partnership, an undivided ownership interest in property and a beneficial interest in a trust are equity interests.

(2) A *publicly-offered security* is a security that is freely transferable, part of a class of securities that is widely held and either—

- (i) Part of a class of securities registered under section 12(b) or 12(g) of the Securities Exchange Act of 1934, or
 - (ii) Sold to the plan as part of an offering of securities to the public pursuant to an effective registration statement under the Securities Act of 1933 and the class of securities of which such security is a part is registered under the Securities Exchange Act of 1934 within 120 days (or such later time as may be allowed by the Securities
-

and Exchange Commission) after the end of the fiscal year of the issuer during which the offering of such securities to the public occurred.

(3) For purposes of paragraph (b)(2) of this section, a class of securities is “widely-held” only if it is a class of securities that is owned by 100 or more investors independent of the issuer and of one another. A class of securities will not fail to be widely-held solely because subsequent to the initial offering the number of independent investors falls below 100 as a result of events beyond the control of the issuer.

(4) For purposes of paragraph (b)(2) of this section, whether a security is “freely transferable” is a factual question to be determined on the basis of all relevant facts and circumstances. If a security is part of an offering in which the minimum investment is \$10,000 or less, however, the following factors ordinarily will not, alone or in combination, affect a finding that such securities are freely transferable:

(i) Any requirement that not less than a minimum number of shares or units of such security be transferred or assigned by any investor, provided that such requirement does not prevent transfer of all of the then remaining shares or units held by an investor;

(ii) Any prohibition against transfer or assignment of such security or rights in respect thereof to an ineligible or unsuitable investor;

(iii) Any restriction on, or prohibition against, any transfer or assignment which would either result in a termination or reclassification of the entity for Federal or state tax purposes or which would violate any state or Federal statute, regulation, court order, judicial decree, or rule of law;

(iv) Any requirement that reasonable transfer or administrative fees be paid in connection with a transfer or assignment;

(v) Any requirement that advance notice of a transfer or assignment be given to the entity and any requirement regarding execution of documentation evidencing such transfer or assignment (including documentation setting forth representations from either or both of the transferor or transferee as to compliance with any restriction or requirement described in this paragraph (b)(4) of this section or requiring compliance with the entity's governing instruments);

(vi) Any restriction on substitution of an assignee as a limited partner of a partnership, including a general partner consent requirement, provided that the economic benefits of ownership of the assignor may be transferred or assigned without regard to such restriction or consent (other than compliance with any other restriction described in this paragraph (b)(4)) of this section;

(vii) Any administrative procedure which establishes an effective date, or an event, such as the completion of the offering, prior to which a transfer or assignment will not be effective; and

(viii) Any limitation or restriction on transfer or assignment which is not created or imposed by the issuer or any person acting for or on behalf of such issuer.

(c) *Operating company.* (1) An “operating company” is an entity that is primarily engaged, directly or through a majority owned subsidiary or subsidiaries, in the production or sale of a product or service other than the investment of capital. The term “operating company” includes an entity which is not described in the preceding sentence, but which is a “venture capital operating company” described in paragraph (d) or a “real estate operating company” described in paragraph (e).

(2) [Reserved]

(d) *Venture capital operating company.* (1) An entity is a “venture capital operating company” for the period beginning on an initial valuation date described in paragraph (d)(5)(i) and ending on the last day of the first “annual valuation period” described in paragraph (d)(5)(ii) (in the case of an entity that is not a venture capital operating company immediately before the determination) or for the 12 month period following the expiration of an “annual valuation period” described in paragraph (d)(5)(ii) (in the case of an entity that is a venture capital operating company immediately before the determination) if—
