

## 29 C.F.R. § 4002.8

---

### Emergency procedures.

---

- (a) An emergency exists if a quorum of the Corporation's Board cannot readily be assembled or act through written contact because of the declaration of a government-wide emergency. These emergency procedures must remain in effect during the emergency and upon the termination of the emergency will cease to be operative unless and until another emergency occurs. The emergency procedures operate in conjunction with the PBGC Continuity of Operations Plan (“COOP Plan”) of the current year, and any government-wide COOP protocols in effect.
