## 29 C.F.R. § 4041.31

---

### Notice of noncompliance.

---

(a) *Failure to meet pre-distribution requirements*—(1) *In general.* Except as provided in paragraphs (a)(2) and (c) of this section, the PBGC will issue a notice of noncompliance within the 60-day (or extended) time period prescribed by § 4041.26(a) whenever it determines that—

(i) The plan administrator failed to issue the notice of intent to terminate to all affected parties (other than the PBGC) in accordance with § 4041.23;

(ii) The plan administrator failed to issue notices of plan benefits to all affected parties entitled to plan benefits in accordance with § 4041.24;

(iii) The plan administrator failed to file the standard termination notice in accordance with § 4041.25;

(iv) As of the distribution date proposed in the standard termination notice, plan assets will not be sufficient to satisfy all plan benefits under the plan; or

(v) In the case of a spin-off/termination transaction (as described in § 4041.23(c)), the plan administrator failed to issue any notice required by § 4041.23(c), § 4041.24(f), or § 4041.27(a)(2) in accordance with such section.

(2) *Interests of participants.* The PBGC may decide not to issue a notice of noncompliance based on a failure to meet a requirement under paragraphs (a)(1)(i) through (a)(1)(iii) or (a)(1)(v) of this section if it determines that issuance of the notice would be inconsistent with the interests of participants and beneficiaries.
