

## 2 C.F.R. § 417.870

---

### When do I know if the USDA debarring official debars me?

---

- (a) The debarring official must make a written decision whether to debar within 45 days of closing the official record. The official record closes upon the debarring official's receipt of final submissions, information and findings of fact, if any. The debarring official may extend that period for good cause. However, the record will remain open for the full 30 days, as called for in § 180.820, even when you make a submission before the 30 days expire.
