

45 C.F.R. § 261.20

How will we hold a State accountable for achieving the work objectives of TANF?

- (a) Each State must meet two separate work participation rates in FY 2006 and thereafter, one—the two-parent rate based on how well it succeeds in helping work-eligible individuals in two-parent families find work activities described at § 261.30, the other—the overall rate based on how well it succeeds in finding those activities for work-eligible individuals in all the families that it serves.
