

## 45 C.F.R. § 270.4

---

### On what measures will we base the bonus awards?

---

(a) *Performance measures: general.* In FY 2002 and beyond, we will base the high performance bonus awards on: four work measures; five measures that support work and self-sufficiency related to participation by low-income working families in the Food Stamp Program, participation of former TANF recipients in the Medicaid and SCHIP programs, and receipt of child care; and one measure on family formation and stability.

(b) *Work measures.* (1) Beginning in FY 2002, we will measure State performance on the following work measures:

(i) Job entry rate;

(ii) Success in the work force rate;

(iii) Increase in the job entry rate; and

(iv) Increase in success in the work force rate.

(2) For any given year, we will score and rank competing States and award bonuses to the ten States with the highest scores in each work measure.

(c) *Measures of participation by low-income working households in the Food Stamp Program—*(1) *Food Stamp absolute measure.* (i) Beginning in FY 2002, we will measure the number of low-income working households with children (*i.e.*, households with children under age 18 which have an income less than 130 percent of poverty and earnings equal to at least half-time, full-year minimum wage) receiving Food Stamps as a percentage of the number of low-income working households with children (as defined in this paragraph) in the State.

(ii) We will rank all States that choose to compete on this measure and will award bonuses to the three States with the highest scores. We will calculate the percentage rate for this measure to two decimal points. If two or more States have the same percentage rate for the measure, we will calculate the rates for these States to as many decimal points as necessary to eliminate the tie.

(2) *Food Stamp improvement measure.* (i) Beginning in FY 2002, we will measure the improvement in the number of low-income working households with children (*i.e.*, households with children under age 18 which have an income less than 130 percent of poverty and earnings equal to at least half-time, full-year Federal minimum wage) receiving Food Stamps as a percentage of the number of low-income working households with children (as defined in this subparagraph) in the State.

(ii) For any given year, we will compare a State's performance on this measure to its performance in the previous year, beginning with a comparison of calendar (CY) 2000 to CY 2001, based on Census Bureau decennial and

---

annual demographic program data.
