

## 45 C.F.R. § 284.20

---

### What information will we use to determine the child poverty rate in each State?

---

- (a) *General.* We will determine the child poverty rate in each State based on estimates from either the Census Bureau or the State, as described in this section. Each year we will use these data to determine the change in the State's child poverty rate over a two-year period, beginning with calendar years 1996 and 1997.
- (b) *Estimates from the Census Bureau.* (1) Annually, we will obtain from the Census Bureau and provide to each State the estimate of the number and percentage of children in poverty in each State. The estimate will be based on the Census Bureau methodology.
